The sky is a mix of blue and white clouds. The building's design features cantilevered balconies with metal railings and a prominent glass-enclosed staircase on the right side. During this time, he worked closely with the state university in Antananarivo and set up the Ernst Bloch scholarship for law students in the master's programme.

CAREER OPPORTUNITIES

We are a committed team that enjoys its daily work and values its collegial and trusting relationships.

We involve our junior lawyers in our advisory teams from the start and encourage them to have independent contact with our clients. We are open to new ideas and initiatives and foster them through targeted training and our mentoring programme.

Our expert team of non-legal staff plays a key role in ensuring that the firm runs smoothly and provides an optimal service to its clients. Of course we also offer apprenticeships.

Flexible working models that enable individuals to reconcile their families and their careers, or to pursue doctorates while working, are perfectly normal at our firm.

While we love our daily work, we believe that a good balance between work and private life is important. Joint activities and celebrations are also essential components of our firm culture.
